

Freelance Geodetic Engineer

Description

Job Summary: We are seeking a skilled Geodetic Engineer to join our team in Laoag Ilocos Nort. The successful candidate will be responsible for handling in-house surveying works, assisting the site operations team, and ensuring accuracy and efficiency in our land development activities. This role involves coordinating with the technical team to address any geodetic-related issues that arise during the project.

Responsibilities

- Conduct in-house surveying works, including but not limited to topographic, boundary, and construction surveys.
- Assist the site operations team in executing surveying tasks to ensure accuracy and efficiency in land development projects.
- Prepare and maintain detailed surveying reports, maps, and drawings.
- Utilize surveying instruments and software to collect, process, and analyze geodetic data.
- Coordinate with the technical team to resolve geodetic-related issues that arise during project execution.
- Ensure compliance with industry standards, regulations, and safety protocols in all surveying activities.
- Verify and validate survey results and data for accuracy and reliability.
- Assist in the preparation of project proposals, plans, and documentation related to geodetic engineering.
- Provide technical support and guidance to other team members on geodetic matters.
- Stay updated with the latest advancements in geodetic engineering and surveying technologies.

Qualifications

- Bachelor's degree in Geodetic Engineering or a related field.
- Licensed Geodetic Engineer.
- Proven experience in conducting various types of surveys.
- Proficiency in using surveying instruments (e.g., total stations, Automatic level instruments) and software (e.g., AutoCAD, GIS).
- Strong analytical and problem-solving skills.
- Excellent attention to detail and accuracy.
- Good communication and coordination skills.
- Ability to work independently and as part of a team.
- Familiarity with land development processes and regulations.
- Willing to work from Mondays to Saturday

Work Environment:

- Based in Laoag Ilocos Norte with occasional travel to other project sites as needed.
- Fieldwork and office work as required.
